

Institute of Ethnology and Cultural Anthropology in Warsaw

Institute of Ethnology and Cultural Anthropology in Warsaw

Institute of Ethnology and Cultural Anthropology in Warsaw is one of the biggest ethnology departments in Poland, offering three level university education in ethnology and cultural anthropology. The offered courses are very diverse but the two original founding currents are still visible: the first, "ethnographic" current of studying "own people" and the second, related to studies of "foreign people". Both traditions account for the strong emphasis on fieldwork.
